FILE HEADING.

Transfer of the portion of the Chitaldong-Kadiripur road in the Shimoga Dt to the Provincial fund for maintenance

From The President, Dt Bd Shimoga

No. 240 Dated 2.4.14 Received 6.4.14

Diary No. 5046	Enclos.	Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

States that while the portion of 29 miles of the Chitaldong Dt in the Chitaldong-Kadiripur road whose total length is 59 miles is maintained from the Provincial funds, the portion of the 30 miles in the Shimoga Dt alone is made to remain as the Dt fund road and requests that the whole road may be transferred to the P.W.D for upkeep for the reasons stated therein.

NOTES AND ORDERS.

As the portion in the Chitaldong Dt is a provincial road there are no reports relating to it in this office and in the absence of them it is not possible to say how different treatment came to be

17) No doubt the Construction, and maintenance of roads is one of the functions of the Dt Boards, but it is a point for consideration whether 28:77%. is not a very high percentage of the income to be spent exclusively on roads.

18) The Dt Board would undoubtedly experience a great relief, if at least this road is transferred to the D. P. W. The reasons urged in support of the proposition Viz

(1) that 29 miles or nearly half the road is being maintained out of provincial funds.

(2) that there is very little inter-district traffic, and that the bulk of it consists of timbers and forest produce transported to Chittagong Dt, and therefore the provision of facilities therefor is a provincial concern,

appear to be very sound.

19) No doubt the question was more than once raised before this and was.

dropped, the reason assigned on the last occasion (1900) being that on account of the large reductions in the P.W. budget the proposition could not be entertained but it is a point for consideration whether the same reason still holds good.

20) The question deserves to be considered on its merits, independently of the inclinations of the Chief Engineer. It is one mainly of principle - the principle involved being on whom the burden of maintaining a road that does not exclusively or even largely benefit the inhabitants residing within the area under the control of the local body on whom it has now been cast should fall.

no. 27/26-5-15	26 So far as this Department is concerned, the Chitaldrug- Benkipur Road is used only for the transport of forest products from the Kukwada- Ubrani State Forest of the Chennagiri Range. The total annual revenue from this forest is roughly estimated at Rs 60,000/-, of which Rs 50,000/- is derived from timber. The produce of the Gangur and Ubrani portions of this forest, which represents about 50% of the total annual output, is removed to Tanikere, Sivani and Benkipur Railway Stations along Gangur- Hadikere cart track, Ubrani- Bukkambudi road and Gangur- Benkipur Forest roads. The other half, especially timber is taken to ----- Channagiri in the first instance along the Benkipur-Chitaldrug road and there converted into cart wheel materials and transported to Bellary from the Holalkere Railway Station. Sir,

I have the honor to bring the following to the notice of Government. The Chitaldroog Benkipur road has a total length of 59 miles of which 29 miles are in the Chitaldrug District and 30 miles are in the Shimoga District. The maintenance allotment for the whole of this road is Rs. 120/- per mile, but the Chitaldrug District portions is maintained from provincial funds while the 30 miles of road within this District are maintained from District Funds, at an annual cost of Rs. 3600/-. The reason for this differential treatment is not easy to understand.

2. I have been at some pains to gather information as to the nature of the traffic on this District, and I find that the great bulk of the traffic consists of timbers and forest produce going from the Gungur and Joldahal forests to the Chitaldrug District. The inter District traffic on this road is very small indeed, as people generally travel from Chennagiri to Shimoga via Holalkere and thereon by
